

Stackup Proposal Writing Framework (Locked SOP)

1. Tone & Style (Non-Negotiable)

- 1 Write like a human, not AI
- 2 Use simple, clear, conversational English
- 3 Maintain a storytelling flow
- 4 Make it feel like you're already thinking about their system
- 5 Avoid robotic phrases like "I understand your requirements" or "I'll approach your system"
- 6 Use phrases like "I'll start working on..." and "This is very similar to what I've built..."

2. Opening Rule (Very Important)

- 1 Always start with "For your platform," or "For you,"
- 2 If the client uses a specific keyword, start with that phrasing

3. Proposal Structure (Strict Format)

Paragraph 1 – Approach (40–50 words)

Start with "For your platform..." and explain how you'll start working, including tech stack and process like APIs, workflows, and integrations.

Paragraph 2 – Sample Works Mention (15–25 words)

Mention 2 relevant projects naturally in a conversational tone.

Paragraph 3 – First Project (50 words)

Project Name – 7–9 word title, then link on next line, followed by conversational explanation matching client requirements.

Paragraph 4 – Second Project (50 words)

Same as paragraph 3.

Paragraph 5 – Question 1 (12–15 words)

Technical, thought-provoking, easy to answer.

Paragraph 6 – Question 2 (12–15 words)

Deeper thinking, encourages reply.

Paragraph 7 – CTA (7–10 words)

Short and action-driven.

Paragraph 8–10 – Closing

Best regards,

4. Project Section Rules (Critical)

Each project must include title (7–9 words), link on next line, and conversational explanation.

5. Key Writing Principles

- 1 Match client's features, tools, and industry
- 2 Show that you've already solved similar problems
- 3 Avoid generic claims and buzzwords

6. What Makes This High-Converting

- 1 Client feels you've already built this
- 2 Builds trust and relevance
- 3 Questions trigger reply instinct

7. Quick Checklist Before Sending

- 1 Starts with “For your platform / For you”
- 2 Conversational tone
- 3 Projects include title + link + explanation
- 4 Questions are engaging
- 5 CTA is strong and concise
